Subject: Online Student Payments

1. PURPOSE:

This memo aims to communicate the processes to be followed by students who want to make payments on iEnabler.

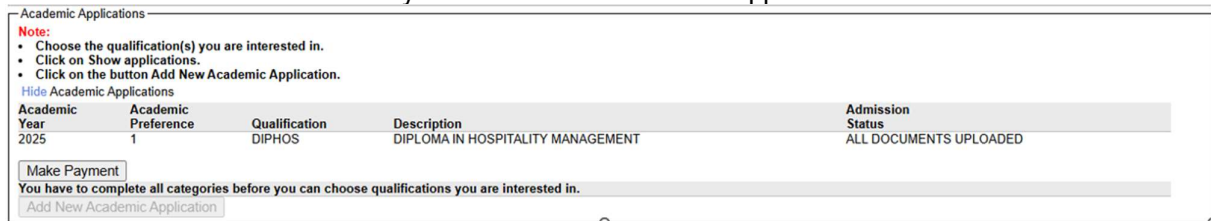

2. BACKGROUND

The University has activated online payments to allow students to pay for their application, tuition, and residence fees through iEnabler. This is in line with Finance's strategy to improve efficiency in processing applications as well as allocating payments to students' accounts. The processing of payments on iEnabler via EFT or their Debit/Credit Cards allows students to continue with their application/registration in real time. Students will still be allowed to make direct deposits at the bank, but they will have to wait at least 24 hours for their payment to reflect in the system.

3. PAYMENT PROCESSES

Applications

1. When a student applies, they will be required to pay their application fee before they complete the application.
2. The student will click on "Make Payment" under the Academic Application section
